

PROTECTOR EURO PROFILE CYLINDERS

- Solid Brass Barrel and Casing
(Cold Extruded Casing for better wearability).
- C4 Broaching x 70mm standard length
- Stainless Steel Springs
- Precision Machined Pins with Rounded end
- Offset sintered fixed cam – suits most known locks.
(Floating cam available).
- Hooded barrel front is slotted so key head actually turns the barrel and operates mechanism – rather than the often frail (deep cuts near shoulder) key shank
- Large easy operation Keyhead with Coloured ID inserts.
- Can be supplied keyed alike, keyed to differ, with OZX1 restricted barrel or your own suitable restricted barrel can be fitted
- Extended cylinders-90, 100, 110 mm available ex stock
- Extensive specialist lock-smithing / manufacturing – please enquire
- Complementary range of C4 Oval cylinders also stocked
- Brass, Chrome Plate & Satin Chrome finishes as standard
